Launch a new products.

Enhance existing customer relationship.

Develop product awareness.

Reach a new market.

Demonstrate a complex product.

Conduct market research.

Generate media coverage.

Provide platform to national and international organization to negotiate business deals and secure linkage.

ABOUT BANGLADESH MARKET

The food processing industry is a 4.5 bill USD industry in Bangladesh. Processed food represents one of the major potential sectors in terms of its contribution to value addition and employment. The sector accounts for over 22% of all manufacturing production and employs about 20% of the labour force. All food processing enterprises account for 5% of GDP (around 4.48 bill USD).

There are nearly 700 processed food manufacturing enterprises in the country. These include processing of bakery confectionary, fruits and vegetables, cereals, dairy, carbonated and non carbonated fruits juices, drinks, others beverages and various other food products. At the moment Bangladesh exports around 90 kinds of agro processed food products to over 70 countries throughout the world. However, value-wise 81% of the products are exported to ten major importing countries including Italy and UK in Europe, USA and to a smaller extent Canada in the Americas and a number of Middle East Country with KSA, UAE and Kuwait taking the lead.
